

## ***Electronic Health Record Consultant***

---

Galen Healthcare Solutions is a Professional and Technical Services Company with a specific focus on assisting members of the health care community with the challenging, sometimes painful task of migrating to a predominantly paperless world. Galen has built the largest and most accomplished group of Enterprise EHR professionals within our community. Along with size and experience, Galen brings true breadth and depth across Implementation, Project Management and Technical Services.

In 2010, *Inc.* magazine ranked Galen Healthcare Solutions #21 in the health industry and #333 overall on its fourth annual Inc. 5000, an exclusive ranking of the nation's fastest-growing private companies. The list represents the most comprehensive look at the most important segment of the economy—America's independent-minded entrepreneurs.

Galen prides itself on being a unique consulting organization and is well-positioned to leverage its experience, its relationships, and its expertise to empower its partners in their efforts to provide extraordinary patient care through the use of technology. We encourage forward-thinking, learning and applying new skills and think of ourselves as a family.

### **Position Description**

We are seeking experienced professionals to assist our Clients with a variety of engagement responsibilities which may include workflow and system assessments, EHR system implementation, project management, upgrade coordination, testing, application support and work flow redesign.

Qualified applicants must possess the ability to understand the integration of applications and their impact on business processes and operations, most importantly clinical workflows. Must be willing to work as a team, have a proven track-record of hard work, and the desire to be the perpetual student.

Experience and/or certification with one or more of the following are preferred:

- Enterprise EHR
- Enterprise PM
- Professional EHR
- Professional PM

### **Requirements**

- 1 to 2 years related experience and/or training in the field of Healthcare IT
- 3 to 5 years of experience as a health care provider, organization, vendor or another consulting firm is highly preferred; specifically with project management, implementations, system support, or work flow redesign.

embrace the new world of healthcare
