

## Allscripts EHR Programmer / Analyst

---

**Join a rapidly-growing consulting firm and change the way  
medicine is practiced in this country.**

Galen Healthcare Solutions is a young, dynamic, privately-held organization seeking individuals committed to personal and professional excellence. Our philosophy is simple; our people first, and our clients before anything else. Focus, dedication and expertise have brought us to this point; we invite you to become a member of our team, and an element of our success.

The role of Programmer / Analyst covers a wide range of technical and healthcare IT skills. Although formal professional experience is not required, relevant experience is preferred. This role will provide you the opportunity to build your skills in an environment that will challenge you, while working with a team that will promote your professional growth.

You will be responsible for:

- Building strong relationships with your clients.
- Designing and developing electronic data exchanges with the Allscripts Enterprise EHR.
- Managing multiple projects, across a wide array of clients.
- Analyzing client requirements, implementing the desired solutions and using your judgment to recommend alternatives when appropriate.
- Following clients' change control processes.

Required skills:

- Desire to learn
- Exceptional communication skills
- Troubleshooting skills
- Solid technical acumen

Desired skills:

- HL7 interface development
- SQL Server querying
- Allscripts Enterprise EHR (TouchWorks)
- Healthcare experience (IT or clinical)
- GE/IDX ConnectR
- Orion Rhapsody interface engine

Travel: 10-25%

Required: relevant IT experience

Education: Bachelor's in Computer Science, Information Systems or relevant experience healthcare IT

Location: Boston, MA

Applicants must be a U.S. Resident or currently able to legally work in the U.S.
